I just searched both EtO SAB reports and 2<sup>nd</sup> review did not mention it at all. In the 1<sup>st</sup> review MM model was brought up in Appendix by Hattis, but **Ex. 5 Deliberative Process (DP)**

I suggest not to discuss modeling merits with David, but just state that MM was not suggested by SAB at all and using it now would be asking for new SAB review. It was NOT recommended.

Can you check the first SAB review?

I think we should try it if it was recommended. I think Hattis may have recommended it and he could consult as to rationale and how to set it up.

## **Ex. 5 Deliberative Process (DP)**

- (1) Can you remind me, I think the first SAB suggested we try the **Ex. 5 Deliberative Process (DP)**  
**Ex. 5 Deliberative Process (DP)** Did we try that? What happened if we did?

- (2) **Ex. 5 Deliberative Process (DP)**
